

Hemoglobinopathy (Sickle cell and Thalassemia) Counselor Training Course

COURSE DESCRIPTION

The goal of this course is to prepare hemoglobinopathy counseling professionals to work effectively with families with, or at risk for hemoglobinopathies by increasing their knowledge of hemoglobin disorders and variants as well as risk of inheritance while providing support services. The program will utilize online power point lectures, videos, and zoom discussions. Participants will also be required to complete an internship.

CERTIFICATION: Learners will receive a certificate upon successful completion of the program.
